Awarding organisation fee rules and assumptions:

- Centres will register learners on the most appropriate qualification or combination of units.
- Refunds will not be provided to centres for learners that do not complete their qualification or combination of units.
- If a learner registers but fails to start the course, the centre can use the learner fee to transfer to another learner or request a refund. A withdrawal / transfer fee will apply.
- If a learner defers and returns to learning within a year, the centre will not be invoiced again provided the learner is still aiming to complete the original qualification or combination of units that they are registered against.
- All centres must pay the annual centre registration fee, as required, in order to remain an approved centre.

6. The fee published is calculated on the smallest number of units required to achieve the qualification. If additional units are taken this will increase the overall fee for the qualification.
7. A fee is chargeable for any registrations deemed to be late. A registration will be deemed to be late if it is received more than 6 weeks after the course delivery has started. Ideally all learners should be registered as soon as the course commences.
8. Requests for replacement certificates will be charged in the event that a learner has lost their certificate or the centre has provided incorrect learner data.
9. If a centre is subject to a sanction that requires an additional external quality assurance visit or support, this will be chargeable at the published rate. Centres may voluntarily request an additional EQA visit or support which will also be charged at the published rate.
